4. Special Endeavours

The objective of the Board Award is to recognise architects registered in Western Australia whose attitudes and personal contributions to the profession and community have enhanced public confidence in the standing of the profession, and/or promoted public awareness of the profession. The Board Award is not intended to recognise the successful career of an architect, achievement in building design or academic excellence. Rather, it is awarded to recognise **special endeavours** outside of those considered to be the normal business activities of an architect, which may otherwise go unrecognised. **The nominee's special endeavours should thus form the main focus of the nomination**. Reference to buildings and projects should only be included if they are relevant to the nominee's special endeavours.

Please outline the special endeavours undertaken by your nominated architect. Attach additional pages if required.

5. Referees

Please attach at least two written references for the nominee. References must include the referee's name and position, and address the nominee's special endeavours.

6. Submission

Please send this completed form, and all required supporting information, to the Registrar at the Architects Board of WA by **5pm on Wednesday, 11 September 2019.** Submissions can be provided in hard copy or by email. Late nominations will not be accepted. Nominations that do not include all of the required supporting information will also not be accepted.
